

TokenTalk

Stay Ahead of
Crypto Markets

The screenshot shows the TokenTalk website's landing page. At the top, there is a navigation bar with the TokenTalk logo, followed by links for Features, Pricing, About, Contact, and a prominent blue "Start Tracking" button. Below the navigation is a call-to-action button with a bell icon and the text "Never miss a price movement again". The main feature is a large, bold title: "Stay Ahead of Crypto Markets". Below the title, a subtext reads: "Track 5000+ cryptocurrencies in real-time and get instant notifications when prices hit your targets. Never miss an opportunity again." Two calls-to-action are present: a blue button labeled "Start Monitoring Free →" and a white button with a play icon labeled "Watch Demo". At the bottom, there are four key statistics: "4,491+" (Cryptocurrencies), "134,755+" (Alerts Sent), "22,459+" (Active Users), and "88%" (Uptime). The background has a subtle grid pattern.

Overview

TokenTalk is a cutting-edge web application that leverages artificial intelligence to monitor cryptocurrency markets and deliver intelligent, personalized alerts directly to users' email addresses. Built with modern web technologies and powered by advanced LLM capabilities, TokenTalk transforms how traders and investors stay informed about market movements.

What Makes CryptoWatch Special

- **AI-Powered Intelligence:** Uses Large Language Models (LLM) to analyze market patterns and generate contextual alerts
- **Real-Time Monitoring:** Tracks 5,000+ cryptocurrencies with live price updates via CoinGecko API integration
- **Intelligent Notifications:** Smart email alerts with market analysis and actionable insights
- **User-Centric Design:** Intuitive interface built for both beginners and professional traders
- **High Reliability:** 99% uptime with robust error handling and failover systems

Key Features

Smart Alert System

- Price target alerts (above/below thresholds)
- Percentage change notifications (gains/losses)
- Volume spike detection
- Market cap milestone tracking
- Custom compound conditions
- AI-generated market analysis

Real-Time Tracking

- 5,000+ supported cryptocurrencies
- Live price updates every 30 seconds
- Historical data visualization
- Market trend analysis
- Portfolio performance tracking
- Multi-timeframe charts

LLM Integration

- Contextual alert descriptions
- Market sentiment analysis
- Trend prediction insights
- Personalized recommendations
- Natural language summaries
- Risk assessment reports

Email Notifications

- HTML-formatted alerts
- Mobile-responsive emails

- Customizable frequency settings
- Batch notification options
- Priority alert classification
- Unsubscribe management

The screenshot displays the TokenTalk mobile application's main screen. At the top, there is a header bar with the app's logo and the text "TokenTalk" followed by the subtitle "Track your crypto investments in real-time". On the right side of the header are three icons: a bell with a red dot, a refresh symbol, and a user profile icon.

Below the header, there is a summary card on the left showing "Total Portfolio Value \$500" with a green percentage increase of "+500.00% (24h)" and a copy icon. To the right of this is a "Get Notify TRACK COINS" section with a blue alert icon and a button to "Alert me when Bitcoin reaches \$100,000".

The main content area is titled "Your Assets" and shows a table of 10 assets out of 1077. The columns are "Asset", "Price", "Provider", and "Chart". Each asset row includes a small circular icon with a color-coded background (e.g., purple for sUSDe_RATE_PROVIDER, green for YY_PNG_AVAX_USDC_LP, blue for PNG_AVAX_USDC_LP, and pink for ENTROPY), the asset name, its current price, the provider name, and a small chart icon.

Asset	Price	Provider	Chart
sUSDe_RATE_PROVIDER	\$11951315115.92	\$redstone-primary-prod	
YY_PNG_AVAX_USDC_LP	\$22500343.59	\$redstone-main-demo	
PNG_AVAX_USDC_LP	\$15775019.47	\$redstone-main-demo	
ENTROPY	\$9427939.00	\$redstone-main-demo
